Super Premium Interior/Exterior Enamels

Epic is a line of super-premium enamels designed for use on trim and accent areas where a smooth, self-leveling and durable finish is required. Created with a unique urethane-alkyd resin to provide a long lasting, hard finish that outperforms standard enamel coatings. This user friendly, waterborne formulation is ideal for residential, commercial, and light industrial applications.

Epic is available in multiple sheens - Satin, Semi-Gloss, and Gloss to meet a wide variety of project needs. Epic is also available in a full color range from whites to deep accent colors.
