

WATERBORNE COATINGS

EVO® ECLIPSE PIGMENTED AND TINTABLE BASE SYSTEM

EVO

ECLIPSE

EVO® ECLIPSE - is the newest breakthrough waterborne coating system from Gemini Industries that again raises the bar for wood coatings in North America. Waterborne has never been easier or better.

EASY - Eclipse is super smooth off the gun and dries fast. Just stir and go.

DURABLE - Eclipse is extremely durable right out of the can. To achieve extra hardness, chemical, or water resistance, the Eclipse system may also be further crosslinked with our EVO Hardener for maximum 2K performance.

SAFE - Eclipse is a waterborne system with virtually no odor, so it is perfect for on-site finishing. Eclipse also allows the finisher to add anti-microbial protection before application to any product in the Eclipse line, with a simple and safe additive that can be easily mixed in before application.

EVO® ECLIPSE PIGMENTED PRODUCT ADVANTAGES:

- 4 Base Tint System Provides Thousands of Designer Colors at Your Fingertips
- Further Enhance Performance with Optional Hardener
- Optional Anti-Microbial Protection Lasts for the Lifespan of the Coating

EVO® ECLIPSE PIGMENTED AND TINTABLE BASE SYSTEM

- ECLBP-2000 Black Primer
- ECLWP-1000 White Primer
- ECLWT-01XX White Base
- ECLMT-02XX Mid-Tone Base
- ECLDB-03XX Deep Base
- ECLCB-04XX Clear Base
- EWH5
EVO Hardener
- EAM1
EVO Anti-Microbial Additive

Available in 4 Sheens, Flat, Dull, Satin, and Semi-Gloss

*EVO® ECLIPSE Tint Base System
Makes Color Matching Simple and Fast!*

EVO®

ECLIPSE

EVO® ECLIPSE CLEAR product advantages:

- Low Odor - Finish in Shop or On-Site with No Smell
- Fast Dry - Dries Like Solvent Based Coatings
- Easier to Apply than Low VOC Solvent Based Coatings
- Exceptional Clarity
- Meets KCMA Performance Requirements, when Applied to Manufacturer's Specifications
- Extremely Low VOC
- Optional Hardener Adds Increased Performance
- HAPs Free
- Formaldehyde Free
- Phthalate Free
- Optional Anti-Microbial Protection Lasts for the Lifespan Of the Coating

EVO® ECLIPSE is ideal for:

- Kitchen Cabinetry
- Architectural Millwork and Casework
- Wood Furniture
- Interior Doors and Moldings
- Field Finishing On-Site
- Re-Finishing Older Finished Cabinets On-Site
- Designers and Customers that Request Anti-Microbial Protection

EVO® ECLIPSE CLEAR SYSTEM

- ECLSS-0100 Sealer
- ECL-0090 Gloss
- ECL-0060 Semi-Gloss
- ECL-0030 Satin
- ECL-0020 Dull
- ECL-0010 Flat
- EWH5 EVO Hardener
- EAM1 EVO Anti-Microbial Additive

Available in 5 Sheens, Flat, Dull Satin, Semi-Gloss, and Gloss
